1 INTRODUCTION

IMPACT OF COVID-19 ON INSTITUTIONAL PLANNING

The unprecedented health crisis caused by the COVID-19 pandemic was not and could not have been anticipated at the beginning of the 2021-2026 University Strategic Planning process.

of Health COVID-19 guidelines, which included wearing PPE, social distancing, frequent handwashing, testing, quarantining, isolating, etc., as necessary.

In June 2020, CDU leadership converted the Academic Continuity Task Force (ACTF) to the Academic Reopening Taskforce (ARTF) and established an additional Campus Preparedness Taskforce (CPTF). These changes were made to plan in earnest for the return to campus and to bring students back via a hybrid education model for Fall 2020 and perhaps the entire 2020-21 academic year. The charge of the two task forces was as follows: ARTF^o to plan for and implement activities in the Fall 2020 semesters with the purpose of minimizing on-campus activities[~] and CPTF^o to identify what, when and how we reopen the CDU campus to serve our students, staff, faculty and community, and to conduct the daily operations of the University.
